Profile

I am a Data Analyst with an engineering background and a strong passion for transforming data into meaningful insights that support smarter decision-making. I have hands-on experience working with SQL, Excel, Python, Power BI, and Tableau to clean, analyze, and visualize data. I am comfortable handling large datasets, writing efficient SQL queries, performing data analysis with Python, and building interactive dashboards that clearly communicate insights to both technical and non-technical stakeholders.

Education

Bachelor's 2024 – 2028
Faculty Of Engineering , Alexandria University

Professional Experience

Data Analyst Intern 2025 – 2026
Digital Egypt Pioneers Initiative (DEPI)

- working on projects and making Dashboards

Intern at Digital Egypt Cubs Initiative (DECI) 2022 – 2023

- Problem Solving Competitions
